Enrollment Update

Based on the June 11th enrollment report prepared by the KCCD Institutional Research Office, BC shows summer 2020 enrollment 8.9% over this time last year, indicating our recent reintroduction of our normal outreach and recruitment activities in our virtual environment is correcting the deviation from normal enrollment patterns we witnessed in May.

We are expecting a similar uptick in our fall enrollments as the semester progresses.

Virtual Commencement Celebration

In addition to a future opportunity to participate in May 2021’s in-person commencement ceremony, BC will celebrate this year’s graduates virtually.

The program will air on KGET on July 11 from 7-9pm.

Check out the virtual Commencement page for more information.
Data Snippet: Improving Completion & Reducing Average Units Accumulated at Time of Award

More students than ever before are completing their degrees and certificates - in less time and with fewer units. In May 2020, 70% of our Associate Degree for Transfer graduates were Latinx - a 6 point increase since 2015 and evidence that we have closed the racial equity gap in that metric.

Today, our graduates are completing their degrees with fewer units - on average, 6.9 units less that just four short years ago. Our ADT students graduate with even fewer excess units - 76.4 units - a stark contrast to the 91.1 units AA/AS students were graduating with in 2016-18.

Not only does this reduction in unit accumulation advance our progress toward the CCCCO’s Vision for Success, it results in **less time and money to degree completion**.

At $46/unit, the average cost to AA/AS completion was $4,160.60 in enrollment fees alone in 2016-17. Since 2016, we have significantly scaled our ADT offerings, which now represent BC’s primary awards to graduates. This shift in focus, combined with a more clear, direct path to completion, graduates today pay an average of $3,513.40 for an Associate Degree for Transfer.

This is a **$647.50 savings to the student**. With approximately 1,500 ADT graduates, this represents a **$971,250 savings to taxpayers**.
