What Is The Ultimate Goal

California Guided Pathways
College Futures Foundation

More Graduates for a Thriving California
At College Futures Foundation, we believe improving college achievement is central to California’s future, and that college success should be an option for every student. We work to remove systemic and institutional barriers to college degrees, enabling students to access the knowledge, financial aid, and other resources they need to complete their degrees on time and choose their own futures.
Outcomes For Today

• Grounded in the CA work. Particularly the national partners.

• Grounded in the AACC National Approach to the Pathway of Engagement for the colleges.

• Develop the CA Guided Pathways Advisory Group.

• Develop the Readiness assessment.
