Bakersfield College presents:
Campus-wide Measure J Facilities Master Plan and Projects Update
Monday, February 5th 2018
Public Forums held in Arvin and Bakersfield

You are invited to a campus-wide public forum discussing the Measure J Facilities Master Plan and Projects update on Monday, February 5th. Consultant group AECOM/Parsons will present an update regarding the facilities, planning, and inform the campus and community on the upcoming projects ahead. An event will be hosted in both Arvin and Bakersfield.

Arvin Public Forum
Congratulations future Renegades, Bakersfield College is coming to Arvin! You’ve already heard the good news, now come out to Arvin to learn more about the construction of the Bakersfield College Arvin Center! The mission of this public forum is to inform the community of the upcoming projects ahead from the recently announced Measure J funding. “We look forward to expanding courses offered in Arvin so that students can complete all or a significant part of their degree locally,” said Bakersfield College President Sonya Christian.

Our projects include offering high school students a cohesive program of study and support services that will ultimately streamline the pathway from high school to college. The discussion, taking place in the Veteran’s Hall from 5:00 p.m. to 6:00 p.m., will have presentations in both English and Spanish.

Bakersfield Public Forum
The Bakersfield forum will take place at the Levan Institute at 2:00 p.m. to 5:00 p.m. The presentation will provide a brief overview of the work done thus far, and dive into the first few facilities that project work will commence this year. Updates on the following topics will be presented; Science and Engineering, Athletics and Kinesiology, Memorial Stadium, Gym, Student Services Neighborhood, Welcome Center, CSS and Agriculture.

Bakersfield College offers a rigorous and supportive learning environment that fosters students’ abilities to think critically, communicate effectively, and demonstrate competencies and skills in order to engage productively in their communities and the world, while simultaneously contributing to the intellectual, cultural, and economic vitality of the communities it serves.
