Bakersfield College Industrial Technology and Transportation Virtual Career Expo
Wednesday, April 1, 2020 via confer zoom from 10:00am to 12:00pm

Bakersfield College Career Education is pleased to announce the Industrial Technology and Transportation Virtual Career Expo 2020.

Last year, Bakersfield College provided a highly successful Career Expo in a face-to-face environment through an all-day on campus event. As the Bakersfield College campus transitioned to a virtual learning environment, so did its student support services. The Virtual Career Expo is another example of Bakersfield College’s commitment to continual learning and engagement. The Expo will provide traditional access to industry partners via one-on-one consultations providing a more personalized experience. This is an opportunity for students to ask direct questions to industry employers.

The Virtual Career Expo will take place on Wednesday, April 1, 2020 via confer zoom from 10:00am to 12:00pm. This expo provides an opportunity to connect students with employers in the automated technology and transportation pathways.

Employers will share industry insight, employment opportunities and assessment of local workforce needs. The Expo is open to students and the community at large. Bakersfield College will continue to make these opportunities available in an effort to address local employment demands.

Berry Corporation is just one of the employers participating in the expo. This is an opportunity for students and community members to ask about the opportunities available and begin a pathway to long term employment.

“Berry Corporation is proud to participate in Bakersfield College’s Virtual Career Expo. We had a great experience last year and are pleased to see the creativity of the Career Technical Education team as they seamlessly transition students to a virtual environment. We are interested in providing information about our organization in the hopes of finding employees who can fill immediate needs to enhance our team,” said Lisa Rodriguez, Human Resources Supervisor of Berry Corporation.

“We are fortunate to have industry partners interested in developing the workforce in our community,” said Anthony Cordova, Director of Career Technical Education. “They are committed to ensuring students develop the skill set needed to succeed in their chosen career pathway. I appreciate the initiative taken to ensure we continue to host this forum in a virtual environment so as not to disrupt the continued development of our students.”

When signing up for the Virtual Expo, you will have an opportunity to select the industry forum and time of participation to speak with a particular employer. Participating industry partners are currently hiring.

For more information or to request accommodations in advance, please contact Carlos Medina at (661) 395-4572 or carlos.medina@bakersfieldcollege.edu.

###

Bakersfield College offers a rigorous and supportive learning environment that fosters students’ abilities to think critically, communicate effectively, and demonstrate competencies and skills in order to engage productively in their communities and the world, while simultaneously contributing to the intellectual, cultural, and economic vitality of the communities it serves.
