BAKERSFIELD COLLEGE AUTOMOTIVE TECH PROGRAM RECEIVES MASTER LEVEL ACCREDITATION

Bakersfield College’s Automotive Technology program has been awarded Master Automobile Service Technology Accreditation – the highest level of program accreditation recognized by the National Institute for Automotive Service Excellence (ASE). The achievement of master-level accreditation is a first in Bakersfield College history.

BC Dean of Instruction, Michele Bresso, attributes the accomplishment to the forward thinking, resourceful spirit, and dedication of faculty and staff involved in the program. She said, “our brilliant Automotive faculty including professors Justin Flint, Andrew Haney, Vic Posey, and Rony Recinos are to be commended for their partnership and collaboration with local industry and community leaders to enhance BC’s program. With the support of these partners, BC is able to provide Renegades the opportunity to learn using the latest technology which leads to skilled employability within the local industry.”

The Automotive Technology Program develops students’ knowledge and skills in the areas of automotive system operations, trouble-shooting, maintenance and repair skills. The College offers an Associate’s Degree in Automotive Technology, 12 Certificates of Achievement, and one Job Skills Certificate in the Automotive Technology discipline.
