To all,

Bakersfield College will be hosting the 2019 Regional Chevron Design Challenge!

This event will take place on Saturday, April 13, 2019 from 7:30 AM – 5:30 PM in the Math and Science Buildings and Forum 101, located on BC’s main campus.

Teams will be composed of three high school students, all of whom have completed or are currently enrolled in a PLTW, IED, or ID class. Teams will be given a design brief in the morning and will have the entire day to work together and create an original design that meets the design specifications given. At various times during the day, the teams will be required to submit sketches, assembly drawings, parts drawings and an exploded view with parts list for judging. At the end of the day, participants will give a short presentation of their design to a panel of engineers. The final presentations are open to the public.

Please feel free to reach out for any interviews or questions.

Many thanks, Marlene
