Career Opportunities

What Careers are available in public health?
There are a wide range of careers in public health across the private sector, such as insurance companies, clinics, foundations, and non-profits, and the public sector, such as county and city organizations.

Kern County Public Health Services Department
This short video with Brynn Carrigan, Assistant Director of the Kern County Public Health Services Department, highlights a few positions at the Kern County Public Health Services Department. Positions range from outreach in the community, environment health inspections to working in a laboratory.

Degree Plans
