Dear Colleagues:

As of today April 15, 2020, the Johns Hopkins University Dashboard shows that the worldwide cases of COVID-19 has crossed the 2 million mark.

Kern saw the largest single-day jump in confirmed cases yesterday, adding 70 to the overall count. Although the overall count is relatively low, Kern's one day percentage change is higher than the national, U.S., and statewide percentage change.

The IHME Dashboard shows promising reductions in the overall curve of this wave of COVID-19 in the U.S. and California. In my March 30 Renegade Roundup, I first introduced the campus to the IHME dashboard at which point the projections were significantly higher. Below are two tables capturing the change in projections in the IHME Dashboard from March 30 to today, April 14.

<table>
<thead>
<tr>
<th></th>
<th>UNITED STATES</th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>2 Days Since Peak of April 13, 2020</td>
<td>Total Deaths at Peak</td>
<td>Total Deaths on May 15</td>
</tr>
<tr>
<td>March 30 Projection</td>
<td>2,271</td>
<td>29,618</td>
<td>73,552</td>
</tr>
<tr>
<td>April 15 Projection</td>
<td>2,150</td>
<td>24,133</td>
<td>63,290</td>
</tr>
<tr>
<td>Difference</td>
<td>121</td>
<td>5,385</td>
<td>10,262</td>
</tr>
<tr>
<td>Change</td>
<td>-5.3%</td>
<td>-18.5%</td>
<td>-14%</td>
</tr>
</tbody>
</table>
California has done particularly well in flattening the curve to slow the spread of the virus.

<tr>
<td>Change</td>
<td>-48%</td>
</tr>
</tbody>
</table>

Yesterday, April 14, Governor Newsom announced six parameters necessary for the state to lift its statewide stay-at-home order. The day before, April 13, I announced that BC is planning an incremental reopening of the physical campus to ensure the safety and wellbeing of students, faculty, and staff - once again, playing to where the puck is going to be.

Newsom’s framework to lift the stay-at-home order include:

- Expanding testing
- Protecting high risk groups, including seniors, the medically vulnerable and those in facilities like nursing homes
- Ensuring hospitals have enough beds and supplies to care for patients
- Progress in developing treatments
- Ability of schools and businesses to support physical distancing
- Ability to reinstitute stay-at-home orders if needed

Even after these six elements of the framework are in place, Governor Newsom warned California will not return to “normal” until we have developed herd immunity and have a vaccine. Newsom described “likely scenarios” Californian’s should expect, which include temperature checks upon entrance of schools and businesses, regularly wearing face coverings in public, and continued practice of safe physical distancing. Newsom noted that he is working with the Superintendent of Schools to identify strategies to ensure safe physical distancing in schools into fall 2020. He further clarified that large gatherings will not be permissible in the near future, stating they are “negligible, at best” until we have herd immunity and vaccinations for COVID-19.

As we prepare for BC’s incremental reopening, I ask you to review my Renegade Roundup from one week ago - April 7. In it, I detail the steps BC is taking to ensure the stability of the institution, the quality of our services and supports, and the health and wellbeing of our community -- all while preparing to meet rising demands as unemployment and economic strife drive up our enrollment while we experience fewer resources. An excerpt reads:
Historically, as unemployment rises, enrollment in community colleges also rises while budgets slim. **This means we need to be prepared to do more with less.** This means we need to serve more students more efficiently. It means we need to open our doors wider than ever to create the opportunities those in our community need as they face job loss, severe financial strain, and the emotional toll that comes with economic strife.

Let the times guide our creativity

Unemployment → More students
Economic Downturn → Less Resources
Viral Epidemic → Redesign functions Agile

1. Health and wellbeing of employees and students
2. Effective and efficient
3. Practice appropriate physical distancing
4. Prioritize student learning and program completion
5. Safety protocols for individuals to follow in physical spaces
6. Agile – tight/loose

**Always in Community**

I am confident that we are prepared to make this transition, letting the times guide our creativity (thank you Kris Tiner) - always in community.

Next week, I will host two virtual seminars.

**Monday, April 20:** Political and Community leaders:
- Shannon Grove, California State Senate
- Ryan Alsop, County Administrative Officer
- Michael Turnipseed, Executive Director of Kern Tax

*A tip: Joining audio by phone in addition to joining the video by web will give you the most clear audio and ensure poor internet connections do not interrupt the content*

That's all for now.
Until next time.

With much Renegade Pride and Collegiality,
sonya
