**COVID-19 Dashboards:**

As of today April 20, 2020 at 6:45 a.m., the [Johns Hopkins University Dashboard](https://www.jhu.edu) shows 2,422,525 confirmed COVID-19 cases worldwide, 760,245 in the United States, and 31,531 in California. Kern County Public Health has announced 632 confirmed cases in Kern County.

Last week, Kern County Public Health launched a dashboard to track local testing, cases, and hospitalizations.

Below are two tables capturing the change in projections in the [IHME Dashboard](https://www.dartmouth.edu) from March 30 to today, April 20.

<table>
<thead>
<tr>
<th>United States</th>

California has done particularly well in flattening the curve to slow the spread of the virus.

That’s all for now.
Until next time.
