Clarify the Path:

- Work and build on the third year of the CCPT2 grant.
- Maintain a program budgeting accounting system to assist in the success of the vision of CCPT2.
- Continue to commit to the strong working relationships within BC campus, faculty and constitutes at our feeder high schools.

Get on the Path:

- Expansion of pathways to CCPT2 grant during third year, adding two pathways to build and sustain pathway success (*Automotive & Manufacturing/Fabrication*).
- Collaborate with CCPT2 faculty to continue and maintain pathway success to build on what is working and what progressive movements can be accomplished.
- Plan and implement a CCPT2 Pathway Showcase allowing for BC pathways and consortia to “show off” areas and student projects.

Stay on the Path:

- Continue to gain insight and vision from my Dean and other key BC administrators here at BC.
- Continue to assist with dual enrollment outlook/vision and collaborations with our key stakeholders.
- Build on the articulations and program of studies for each pathway allowing for successful student success rates and learning outcomes.

Meaningful Learning:

- Provide key paths for successful completion of pathways by providing faculty and staff essential professional development opportunities.
