Meet New Adjunct Librarian: Colleen Cook
I’ve worked as some combination of a librarian and archivist for the past eight years after I realized that Human Resources wasn’t my passion. My information career has allowed me behind the scenes access in several national parks, to plant hundreds of tulips, locate historic blueprints, and to work with a myriad of experts in fields as diverse as mathematics to horticulture to historic preservation. I’ve spent a lot of time in specialized spaces without public access, so I am thrilled to experience an academic library focused on outreach and service.

I’m excited to have this opportunity to work with California City and Tehachapi incarcerated students on information studies as well the Cerro Coso community. I have a Bachelor’s in History from U.C. Irvine and a Masters of Information and Library Science from San Jose State University. I am learning to garden here in the desert. I also love exploring the Eastern Sierra hiking and OHV trails as well as camping with my family.

Cerro Coso Library Rocks the Vote
Now more than ever is a crucial time to become informed about local, state, and federal politics; Let the library help you wade through fake news and political misinformation.

Websites:

Voter Smart - Includes information on propositions, candidate profiles, endorsements, and finances.
Follow the Money - Use the tools to track contributions, donors and influences on political candidates.
Politifact - Tracks and fact-checks the accuracy of news, statements, and promises of political leaders and candidates.
