Returning to Campus with the KCCD App

If you are returning to campus for in-person classes, you will need to complete a daily health screening and then do contact tracing throughout the day with the KCCD App. Here is how:

1. Download and install the KCCD App to your phone:

Download Links:

2. Choose your campus and log into the app with your InsidePC username and password.
Returning to Campus with the KCCD App (cont.)

3. Make sure notifications are enabled in the app by clicking the bell shaped icon at the bottom of the screen and then the preferences icon at the top right:

   ![App screenshots showing notification settings]

Daily Home Pre-Screening

1. Within the app, you will receive a daily reminder to complete the Daily Health Status Screening form at home. If you tap on the notification, you can fill out the form right away. If you miss the notification or you need to fill out the prescreen, you can tap on this “tile.”

   ![App screenshot showing Daily Health Status Screening form]

2. Your health pass will reset every time to fill out the form.

3. If you do not have a smartphone, you can fill out the At Home Pre-Screening form on a computer by visiting www.PortervilleCollege.edu and selecting the “COVID Self-Screening” menu at the top of the page. You can also use the link provided below:

   [PC Web Screening Form]
4. Based on the answers you provided, the app will issue a health pass.

A “Green” health pass indicates you are clear to proceed to campus.

A “Red” pass means do not go to campus. Please notify your instructor or supervisor and call your primary health care provider. Students may also contact PCTelehealth for further care.

5. If you do not have access to a thermometer at home, you can use one of the touchless thermometer devices located on campus. Press the Campus Map tile in the app for a map of these locations on campus. **NOTE: Please be aware that if you receive a RED pass after checking your temperature on campus, you must return home and contact your instructor.**
Adding Full-Vaccination Information

If you are Fully Vaccinated for COVID-19, you may upload proof of your vaccination status and receive Fully Vaccinated Status. You will be required to check-in each day using the app and to continue checking-in to rooms on campus by scanning QR codes (see below) for contact tracing purposes.

1. To get your “Fully Vaccinated” status, click the blue “Submit Vaccination Info” tile on the home page of the app.

2. Answer the form questions and upload a photo or screen capture of your COVID-19 vaccination card with proof of “full vaccination”. (“Full vaccination” means you have received, at least 14 days prior, either the second dose in a 2-dose COVID-19 vaccine series or a single-dose COVID-19 vaccine.). Once uploaded, you will receive a Green Pass. You will be able to access this pass at any time by clicking the “Campus Pass” tile on the home screen of the app. Please note: The information you submit will be reviewed and confirmed by the Porterville College Administration. Any fraudulent information submitted will result in the removal of your “Fully Vaccinated Status” and may be treated as a violation of the Porterville College Student Code of Conduct.
Building Room Check-In / Contact Tracing

As you move around campus, you will be required to check-in to buildings and rooms by scanning QR codes posted on doors and walls as you enter. They look like the example below.

1. Check-in by clicking the box with the line through it at the top left of the app and scanning the QR code in the room. **DO NOT SCAN THE CODE WITH YOUR PHONE’S CAMERA APP. THEY MUST BE SCANNED IN THE KCCD APP TO CHECK-IN PROPERLY.**

2. Be sure to look for and scan QR codes in every area you visit on campus. In the case of an illness, this will help us to contact the people who have also been in those areas. Be sure to scan the codes again as you leave the room to check-out.
